

Architecture and Engineering Combined

Architecture Interiors Urban Design Events Project Management

MRJ Associates architects began its creative story in 2007 to develop regionally responsive architectures.

We actively believe that each project is a unique and vigorous representation of the client's aspirations. In fulfillment, we initiate the project with a detailed study of the site, context, climate, culture and traditions of occupier, expectations and life cycle which assure excellence and perfection in project outcome.

A Single Window Solution to your Project

Profile:

We are committed to the notion of environmentally sustainable and responsive architecture aim to refine and extend the discipline of architecture by improving the energy performance of buildings with responsive technologies while also producing buildings that reflect the cultural conditions, personalities and the uniqueness of the mix of place & people.

Now a day, the complexity of civil construction and high-tech design techniques has demanded perfect co-ordination between various agencies and consultants to achieve the desired result. Excellent communication and coordination play a significant role to complete the project within time and budget, with prefixed quality and stakeholder delight. To execute the projects in line with its requirement, we are into all construction project related services starting from the Land revenue needs to design, execution, project management, interiors and maintenance.

Services:

The studio provides following professional services;

- Land Revenue guidance and documentation
